

DayCab Company is dedicated exclusively to the manufacture of sleeper conversion parts. We do not reuse or ask you to reuse old sleeper panels or upholstery.

Daycab Company is not a one-kit-fits-all "chop shop."

Our 34,000 sf East Tennessee manufacturing plant staffs an engineering team that designs model-specific sleeper conversion kits utilizing state-of-the-art 3D CAD/CAM technology. Our on-site CNC machining department allows our engineers to "virtually" bring designs to life, ensuring consistent precision, quality and results you can rely on.

**Don't Need
A Sleeper But
Need The
Space?
Put a Century
Extended Cab
in its Place!**

DAYCAB CO. offers conversion kits to change Freightliner Century, Columbia, and Coronado trucks into daycabs. These kits give you four additional inches of room compared with factory daycabs. Kits come complete with installation hardware and instructions. All bracing and windows are factory installed.
